"To promote the laudable design of the Legislature, in forming and incorporating this Society, to discourage empiricism, and to prevent, as far as may be, all unqualified persons from practising medicine or surgery; it shall be deemed disreputable, and shall be unlawful, for any Fellow of this Society, in the capacity of physician or surgeon, to advise or consult with any person, who shall hereafter commence the practice of medicine or surgery in this Commonwealth, unless he shall possess either one, or the other of the following qualifications.

"He shall have been duly examined and approbated by the Censors of the Society, or by those of some district Society; or shall have received a medical degree

at Harvard University.

"Or should he have been educated in, or come from, some other state or foreign country, unless he shall have produced to the Censors of the Society, or those for the district, wherein he resides, satisfactory evidence of his qualifications for the practice of medicine of surgery."

"Or unless he shall be a Fellow of the Society, and

shall not have been expelled therefrom."

Pews and Rights in Houses of Public Worship are deemed in law to be real Estate, except in Boston, where they are to be considered as Personal Estate.

The Convention of the Congregational Ministers in the Commonwealth of Massachusetts

IS a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, but vested with no particular authority or control over the Churches.

Their meeting is holden in Boston, in the afternoon of the last Wednesday in May, or day of Election annually; and the following day at eleven, A.M. after transacting the ususal business of the Convention, a sermon is delivered in Public before them, and a collection made for the charitable purpose of relieving the indigent widows of Congregational Clergymen.

Difficulties having often arisen in determining, what widows are the proper objects of the charity of this Convention, it was voted, June 1, 1815,—That a standing Committee of 30 be appointed, 5 of whom shall shall be

L 2

chosen centrally; and the remainder in different parts of the State. The five shall act as a Reporting Committee, to receive from the other members of the Committee applications and statements of facts in behalf of persons who may be subjects of the charity of the Convention, and having considered the same, shall judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the 1st day of their meeting, annually; further, that the names of said Committee shall be annually published in the Massachusetts Register.

Accordingly, when the widow of any Congregational Clergyman is considered an object of the charity of the Convention, it is desired, that answers to the following questions be given by one of the Standing Committee, by the first of May in each year, to be communicated to the Reporting Committee, that they may possess the

decuments for making the correct report to the Convention.

1. What is her age.

2. What are the number, the sex, the ages, and the circumstances of her children?

3. What is a fair estimate of her property?

- 4. What is her ability to help herself?
- 5. What connexions has she, who are bound to afford her assistance? And in what way do they assist her?

6. What is her income?

7. What peculiar circumstances render her an object of charity; or make it desirable, that she should have aid, this year ?

The Rev. Henry Ware, D.D. of Cambridge, is chosen to deliver the next Convention Sermon. In case of failpre. Rev. Abiel Holmes, D.D. of Cambridge, will officiate in his stead.

The Convention earnestly recommend to all young gentlemen who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity which learned and judicious advisers shall think necessary to qualify them for public teachers.

Rev. Charles Lowell, of Boston, Treasurer. Rev. John Pierce, of Brookline, Scribe of the Convention.

#### The General Association in Massachusettts.

THIS body was organized in June, 1805. In 1814, it consisted of Delegates from 12 Associations in Massachusetts Proper. Its members "admit, as articles of faith, the doctrines of Christianity, as they are generally expressed in the Assembly's Shorter Catechism," and consider these doctrines, which have been generally embraced by the Churches of New-England, as the "basis of their Union." This body wholly disclaims ecclesiastical power or authority over the Churches, or the opinions of individuals. The essential objects, as expressed in their Constitution, are "to promote brotherly intercourse and harmony, and their mutual animation, assistance and usefulness as ministers of Christ; to obtain religious information relative to the state of their particular churches, and of the general state of the Christian Church in this country and throughout the

Christian world; and to co-operate with other similar institutions in the most eligible measures for building up

the cause of truth and holiness."

This Association sends Delegates to, and receives Delegates from, the following ecclesiatical bodies, viz. The General Assembly of the Presbyterian Church in the United States. The General Associations of Connecticut and New-Hampshire. And the General Convention of Vermont.

Annual meetings last Wednesday in June.

Rev. ENOCH HALE, of West-Hampton, is the standing Scribe of this Association.

DISTRICT OF COLUMBIA

Is a square with a side of ten miles, and of course contains 100 square miles. It lies on both sides the Potomac, and includes the towns of Washington, Georgetown and Alexandria. It is divided into two counties; the county of Washington on the north side of the Potomac; and the county of Alexandria on the south side. In the former, the laws of Maryland are continued in force; in the latter, those of Virginia. Congress, how-

ever, makes what laws it pleases for both.

Washington city is built on the Maryland side of the Potomac, on a point of land between what is called the Eastern branch and the Potomac. Its plan as laid out, extends nearly four miles up each of those rivers. The Eastern Branch forms a safe and commodious harbour, being sufficiently deep for the largest shirts, for about four miles above its mouth, while the channel lies close along the bank adjoining the city, and affords a large and convenient harbour. The capitol is situated on a pleasant eminence, commanding a-view of every part of the city, and of a considerable portion of the country around. The legislative power is vested in a Governor and a Supreme Court, composed of three Judges, all appointed by the President of the United States. ILLINOIS TERRITORY.

This is the western half of what was formerly cailed the Territory N. VV. of the Ohio, and embraces the whole of it, except what is included in the State of Ohio, and the Territories of Michigan and Indiana. The whole tract contains about 200,000 square miles. It was a part of the Indiana Territory till 1809, when it was erected into a separate government. Population in 1810, was 12,282 inhabitants.

ALABAMA TERRITORY.

This is the Eastern part of the former Missisippi Territory, and is bounded North by Tennessee, East by Georgia, South by Florida and the Gulf of Mexico, and West by the State of Missisippi. The population of this Territory and the State of Missisippi in 1816, was about 76,000; of which 30,000 were slaves. In 1810, the whole number was 40,000, of which 17,000 were slaves.

The Territory originally included in Louisiana, was estimated to contain nearly a million of square miles; as large an extent of country as the whole of the residue of the United States. In 1810, it contained 97,401 inhabitants.

[DRAWBACKS.]

SECT. 4 And be it further enacted. That there shall be allowed a drawback of the duties, by this act imposed, on goods, wares, and merchandize imported into the United States, upon the exportation thereof within the time, and in the manner prescribed by the existing laws, subject to the following provisions, that is to say: That there shall not be an allowance of the drawback of duties in the case of goods imported in foreign vessels from any of the dominions, colonies, or possessions of any foreign power, to and with which the vessels of the United States are not permitted to go and trade; that there shall not be an allowance of the drawback of duties for the amount of the additional duties by this act imposed on goods imported in vessels not of the United States; that there shall not be an allowance of the drawback in the case of foreign dried and pickled fish. and other salted provisions, fish oil or playing cards; that there shall be deducted and retained from the amount of the duties on goods exported with the benefit of drawback, (other than spirits) two and a half per centum; and that there shall be retained in the case of spirits exported with the benefit of drawback, two cents per gallon upon the quantity of spirits, and also three per centum on the amount of duties pavable on the importation thereof. [EXPORTATION BONDS.]

SECT. 5. And be it further enacted, That after the 30th day of June next, in all cases of entry of merchandize, for the benefit of drawback, the time of twenty days shall be allowed from the date of the entry, for giving the exportation bonds for the same: Provided, That the exporter shall, in every other particular, comply with the regulations and formalities, heretofore established for entries of exportation for the benefit of drawback.

[TONNAGE DUTY.]

SECT. 6. And be it further enacted, 'That the duty on the tonnage of vessels, and the bounties, advances, and drawbacks in the case of exporting pickled fish, of the fisheries of the United States, in the case of American vessels employed in the fisheries, and in the case of exporting sugar refined within the United States, shall be, and continue the same as the existing law provides: Provided always, That this provision shall not be deemed in any wise to impair any rights and privileges, which have been, or may be acquired by any foreign nation, under the laws and treaties of the United States, relative to the duty of tonnage on vessels.

Sect. 7. And be it further enacted, That the existing laws shall extend to, and be in force for the collection of the duties imposed by this act on goods, wares, and merchandise imported into the United States; and for the recovery, collection, distribution, and remission of all fines, penalties, and forfeitures, and for the allowance of the drawbacks and bounties by this act authorized, as fully and effectually as if every regulation, restriction, penalty, forfeiture, provision, clause, matter and thing, in the existing laws contained, had been inserted in, and re-enacted by this act, and that all acts and parts of acts, which are contrary to this act, and no more, shall be and the same are hereby repealed.

LAW REPEALING DISCRIMINATING DUTIES, CONTINUED.

SECT. 8. And be it further enacted, That the act passed the third day of March, 1815, entitled "An act to repeal so much of the several acts imposing duties on the tonnage of ships and vessels, and on goods, wares, and merchandize imported into the United States, as impose a discriminating duty on the tonnage between foreign vessels, and vessels of the United States, and between goods imported into the United States, and between goods imported into the United States in foreign vessels and vessels of the United States," shall apply and be in full force as to the discriminating duties established by this act on the tonnage of foreign vessels, and the goods, wares, and merchandize therein imported.

WNIVERSITY AT CAMBRIDGE, OR HAR-VARD COLLEGE.

The General Court of the Colony of Massachusetts Bay, in Sept. 1636, appropriated £ 400 for a School or College within the Government; and appointed and named six Magistrates, and six Elders to order the College. In 1637, they voted that the College should be erected at Newtown. In the year following, they changed the name of Newtown to Cambridge, and in March, 1638—9 enacted that the College to be built at Cambridge, should be called Harvard Coilege, in honour of the Rev. John Harvard, who had bequeathed to it £779:17:2, with his library. In the year 1642, the General Court established the Board of Overseers, to consist of the Governor, Deputy-Governor, for the time being, all the Magistrates of the jurisdiction, with the teaching Elders of the six next adjoining towns; who were invested with power to make statutes and laws for the government of the College, and to dispose and manage its funds.

In May, 1650, the Charter of the Corporation was granted; said Corporation to consist of a President, five Fellows and a Treasurer, styled the President and Fellows of Harvard College. By this Charter, the Corporation procuring the presence of the Overseers, and by their counsel and consent, have power to fill vacancies in their own body. They are anthorized to receive and hold real estate, not exceeding the value of £ 500 pr.ann. and any goods and sums of money whatsoever; and to make conclusive bargains for lands and tenements, &c. They are to choose and remove officers, and make orders and by-laws for the carrying on the work of the College; provided the said orders be allowed by the Overseers By an act of the Court in 1657, called an Appendix to the Charter, the acts of the President and Fellows have immediate force and effect; they being responsible for the same to the Overseers. The Constitution of the Commonwealth recognizes and confirms the powers of the Corporation and Overseers of Harvard College or the University in Cambridge, pointing out the successors to the former Overseers, and reserving to the Legislature of the State such control over the government of the College, as was possessed by the Legislature of the late Province. By an act of the Legislature in 1814—the Corporation may hold real estate to the value of 10,000 dollars per annum.

Summary of the Method of Treatment to be used with Persons apparently dead from Drowning, &c.

The RESUSCITATIVE PROCESS, recommended by the Humane Society.

CONVEY the person to the nearest convenient house with his head raised; strip and dry him as quick as possible: clean the mouth and noffrels from froth and mud. If a child, let him be placed between two reasons naked, in a hot bed. If an adult, lay him on a hot blanket or bed, and in cold weather, near a fire; in warm weather the air should be freely admitted into the room. The body is next to be gently rubbed with warm woolen cloths, sprinkled with spirits, if at hand, otherwise dry. A heated warming san may be now lightly moved over the back, properly covered with a blanker; and the body, if of a child, is to be gently shook every few minutes. Whilft these means are using, let a cryster of warm water, with as much common falt as it will distolve, be thrown into the bowels. Bathe the breaft with hot rum; and perfift in the use of these means for severa: hours figns of life should then appear, let the body be kept warm feveral hours longer, with hot bricks, or velfels of hot water, applied to the palms of the hands and foles of the feet; and

this for a longer or shorter time, as the circumstances of the

case may dictate.

The too customary method of rolling on a barrel, fulpending by the feet, and every violent mode of agitation, particularly in removing the body from the water, should be

most carefully avoided.

To restore breathing, introduce the pipe of a bellows (when no apparatus is at hand) into one of the nostrils, the other and mouth being closed; inflate the lungs, until the breast is a little raised; mouth and nostrils must then be let free. Repeat this process until life appear.

Electricity is recommended to be early employed by ju-

dicious practitioners.

General Observations. - Resuscitation.

On the dawn or first indication of returning life, the prudent practitioner will resign the office of Art to Nature. It is evident that Art has contributed her share, by enabling Nature to struggle with the immediate cause of oppression. It is in fact this judicious blending of Nature with Art that gives to the latter all its efficacy.

On figns of returning life.

A tea-spoonful of warm water may be given; and if swal-lowing be returned, warm wine or diluted brandy. The patients must be laid in a warm bed, and if disposed to sleep, they will generally awake perfectly restored.

The plans above recommended are to be used three or four hours. It is an absurd and vulgar opinion, to suppose persons irrecoverable, because life does not soon make its

appearance.

Bleeding never to be employed, unless by the direction of a physician.

THE Publishers of the REGISTER gratefully acknowledge their colligations to their correspondents in different counties. They regret that in some instances their communications were not received in season to apply alterations in the proper place. This difficulty, however, is partially obviated by corrections in the Appendix. It is respectfully solicited, that communications for 1819 be forwarded as early in September next as possible, or before that time. That some errors should occur in such a publication will not be surprizing to any one, who notices the extensive lists of names which it contains, and the vicissitudes to which each individual is constantly liable.
